Zmanda has built an integrated solution for backing up data on Wasabi Cloud using the powerful and intuitive Zmanda Backup product suite. In this much anticipated technical alignment, users will be able to easily backup to and restore from the Wasabi Cloud with a single click of a button. The main goal of this joint solution is to give more flexibility and storage options to customers. This cost-effective solution will be the start of many more integrations created by Zmanda.

Customers can now reduce their storage costs and improve data security by choosing Wasabi as a storage option in Zmanda platform. All the data from servers, databases, and applications will then be directed to Wasabi Cloud Storage. With the help of Zmanda intelligent scheduler customers can automate their daily backups.

Customers can directly restore data from Wasabi Cloud.

About Zmanda

Zmanda is a proven and cost-effective open source backup and resource solution. Zmanda is the world's leading provider of open source backup and recovery software. Zmanda's open source development model enables us to deliver best-in-class backup software with Amanda Enterprise and Zmanda Recovery Manager for MySQL at a fraction of the cost of software from proprietary vendors. Our simple-to-use yet feature-rich backup software is complemented by best-in-class 24/7 multi-channel support for enterprise customers. Zmanda's innovations include technology to backup data from live applications and databases directly to a storage cloud.

About Wasabi

Wasabi is the hot cloud storage company delivering disruptive storage technology that is 1/5th the price of Amazon, faster than the competition, and features no fees for egress or API requests. Unlike first generation cloud vendors, Wasabi is solely focused on providing the world's best cloud object storage service. Created by Carbonite (Nasdaq: CARB) co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is on a mission to commoditize the cloud storage industry. Wasabi is a privately held company based in Boston, MA. Follow and connect with Wasabi on Twitter, Facebook, Instagram and our blog.

Benefits Summary

- Low cost of ownership
- Restore data quickly and easily
- Enterprise level security
- Greater flexibility

The integration will allow users to:

- Backup data to and restore from Wasabi Cloud
- Automate backup process using Wasabi Cloud
- Schedule routine backups using Wasabi Cloud
